EXPERIENCE

PHP LARAVEL DEVLOPER

Standard Wings Technology - Nashik

Jul 2025 - Present - 1 Years

- Developing and maintaining scalable web applications using PHP & Laravel .
- Strong knowledge of SQL and MySQL database management, including writing optimized queries, database design, and performance tuning.

PROJECT

Car Pooling Platform

Standard Wings Technology

- Sole developer who architected and delivered a full CRM system with 7+ modules including ride management, user management, booking, and reporting dashboards.
- Implemented an interactive admin dashboard providing real-time operational insights for platform administrators.

Khukri - CMS & Blog Module

Standard Wings Technology

- 3 production CRM modules including a live frontend preview system for blog content, cutting content review cycles.
- Architected the blog preview feature using Laravel Blade templating to render production-accurate frontend views directly within the CRM interface.

React & Laravel E-Commerce Platform

Personal

- Architected a decoupled full-stack e-commerce platform with a React.js SPA frontend and Laravel REST API backend, enabling independent scaling and clear separation of concerns.
- ~40% reduction in redundant API calls by implementing React Context and localStorage caching for product data, measurably improving perceived page load speed.

TECH SKILL

BACKEND - PHP | SQL

FRAMEWORKS - LARAVEL | NEXT-JS | REACT JS |

BOOTSTRAP | JQUERY

FRONT END - JAVASCRIPT | HTML | CSS

DATABASE - MySQL

Libraries and Tools - TailwindCSS
